Sizing Your Backdrop

- Consider average photo group size and space at venue
- Use multiple frames to span longer lengths
- Curved frames are great for in corners

Standard sizes with comfortable groupings

5'	8'	10'	12'	15'
1-2	3-4	4-6	6-8	8-10

Easy Add-Ons

- Top mounted lights mute shadows behind subject
- Endcaps hide the frame & provide branding space
- Carpets give a polished look to full body shots
- Lockable hard cases keep things secure during travel
- Rigid signage displayed on easels can direct guests

Remember To

- Make sure you've met your venue's requirements
- Check that your frame is in working order before event
- Bring extension cords if you plan on using lights
- Bring props and costumes for informal settings

FABRIC PRINTS vs VINYL PRINTS

- | | | |
|--|---|--|
| Wrinkle resistant | ◆ | Will have waves if installed incorrectly |
| Dry-cleanable for repeat use | ◆ | Cost effective for single use |
| Leave print on frame for storage | ◆ | Must be transported and stored in 8' or 10' tube |
| Seamless prints up to 100' in length | ◆ | Not recommended for long running lengths |
| Glare-free finish for great photos every time | ◆ | Will have bounce back glare from camera flash |
| Premium look to best represent brands/sponsors | ◆ | Blockout layer built right into material |
